LinkedIn: <https://www.linkedin.com/in/sarvesh-dabholkar>

I am a student of Computer Engineering (Hon. AI/ML) and an enthusiastic part of various committees. I love problem-solving and approach them creatively. My love for coding and the craving for learning more hand-in-hand with adaptability to the needs and environment make me fit to work in challenging environments.

I am up for gaining experience in a working environment and facing real-life technical challenges which shall help me grow professionally.
